

# For a better world

K: Miriam ELEA, M+T: Dr. Christoph Kirchberg/Richard Culpan, V. wattsmusic

Life flies by you oh so fast  
you simply cannot change the past  
I wouldn't do so if I could  
there were times I wished I would

For a better world we must strive  
love brings colour to our lives  
for a better world we must strive  
our love can touch so many lives

in the past there's been tough times  
you've felt such hurt from those lies  
a friend for life needs compromise  
you look into those loving eyes

**For a better world we must strive  
love brings colour to our lives  
for a better world we must strive  
our love can touch so many lives  
be the person you'd like to meet  
help those you love, stay on their feet  
be the friend you'd like to have  
whose trust and help will never waive**

always dwell on happy times  
don't dull your life with long gone sighs  
don't fill your heart with anger and hate  
to make amends it's never too late

**for a better world we must strive  
love brings colour to our lives  
for a better world we must strive  
our love can touch so many lives  
be the person you'd like to meet  
help those you love, stay on their feet  
be the friend you'd like to have  
whose trust and help will never waive**
